Mr. Atallah asked about the budget for the Vision Zero Action Plan. Mr. Mykytka asked if there were any changes from last year to the resolution. Ms. Nicoulin explained that there are no changes to the traffic operations or transportation applications; however, there are minor changes to the bicycle/pedestrian project applications to make the feasibility studies applications and criteria match.

He provided business cards with a link to a survey and invited members to take the survey regarding Flagler County transit improvements. He stated that the survey was geo-fenced to Flagler County only.

Ms. Nicoulin explained that this resolution sets the project rankings and categories. She explained that updated project cost estimates are completed on an annual basis, and there has been a change from last year to allow updated construction costs following the completion of the design phase.

Mr. West asked about the reasoning behind the numbers for the top three and top eight protected projects. She provided a funding breakdown and detailed the key projects.

Mr. Tabassian stated that he had seen conflicting information about the resurfacing project on Roberts Road. Ms. Powell explained that the design and construction would take place in different years and that she would look into it, as the Work Program was still tentative; it is adopted on July 1, 2026.

**B. Presentation and Discussion of the Draft Flagler County FY 2026-2035 Transit Development Plan (TDP)**

Mr. Jonathan Roberson, CUTR, gave a presentation to introduce the draft Flagler County FY 2026-2035 Transit Development Plan (TDP). He explained the highlights of the current transit system, existing and projected conditions, the project schedule, and the upcoming activities.

Mr. Karet asked if there were transit routes planned. Mr. Roberson answered that routes would be planned from scratch.

Discussion ensued regarding microtransit.

He provided business cards with a link to a survey and invited members to take the survey regarding Flagler County transit improvements. He stated that the survey was geo-fenced to Flagler County only.

Review and Recommend Approval of Resolution 2026-## adopting the 2026 Volusia-Flagler TPO Safety Data and Targets

**Contact:** Colleen Nicoulin, [CNicoulin@vftpo.org](mailto:CNicoulin@vftpo.org)

---

Federal law requires state DOTs and TPOs to conduct performance-based planning by tracking performance measures and setting data-driven targets. The first of the Federal Highway Administration's (FHWA) performance management rules that became effective was assessing the conditions of roadway safety (PM1) by requiring state DOTs and TPOs to set targets for five performance measures that assess the number and rate of fatalities and serious injuries on all public roads, including specific targets related to vulnerable road users. FDOT established statewide targets for calendar year 2026 on August 31, 2025. Given FDOT's firm belief that every life counts, the statewide target for each safety performance measure is zero for the following five measures:

- Number of Fatalities
- Number of Serious Injuries
- Rate of Fatalities per 100 million vehicle miles traveled
- Rate of Serious Injuries per 100 million vehicle miles traveled
- Number of Non-Motorized Fatalities and Serious Injuries

TPOs must annually establish targets for each performance measure by supporting the target established by the state and agree to plan and program projects that contribute to the accomplishment of the state target, or by establishing an independent target. In recent years, the Volusia-Flagler TPO has supported the state target of zero for PM1. TPO staff recommends continuing to support the FDOT PM1 Safety Target of Zero for each performance measure.

Resolution 2026-## adopts the Volusia-Flagler TPO Safety Performance Targets for the calendar year 2026.

## Performance Management

October 2025

### OVERVIEW

The first of Federal Highway Administration's (FHWA) performance management rules establishes measures to assess safety on all public roads and the process for the Florida Department of Transportation (FDOT) and Florida's Metropolitan Planning Organizations (MPO) to establish and report their safety targets.\*

### PERFORMANCE MEASURES – APPLICABLE TO ALL PUBLIC ROADS

<b>NUMBER OF FATALITIES</b>	<i>The total number of persons suffering fatal injuries in a motor vehicle crash calculated based on a 5-year rolling average.</i>	<b>RATE OF SERIOUS INJURIES</b>	<i>The total number of serious injuries per 100 million VMT calculated based on a 5-year rolling average.</i>
<b>RATE OF FATALITIES</b>	<i>The total number of fatalities per 100 million vehicle miles traveled (VMT) calculated based on a 5-year rolling average</i>	<b>NUMBER OF NON-MOTORIZED FATALITIES AND NON-MOTORIZED SERIOUS INJURIES</b>	<i>The combined total number of non-motorized fatalities and non-motorized serious injuries involving a motor vehicle calculated based on a 5-year rolling average.</i>
<b>NUMBER OF SERIOUS INJURIES</b>	<i>The total number of persons suffering at least one serious injury in a motor vehicle crash calculated based on a 5-year rolling average.</i>		

### TIMELINE

\* Please refer to the [fact sheet](#) addressing *MPO Requirements* for information about MPO targets and planning processes.

## EXISTING STATEWIDE CONDITIONS

### ANNUAL FATALITIES

## STATEWIDE TARGETS

FDOT establishes statewide safety targets for the following calendar year as part of the [HSIP Annual Report](#), which must be submitted by August 31 each year.

Given FDOT's firm belief that every life counts, the target set for all safety performance measures is ZERO.

## MPO TARGETS

MPOs must set targets by February 27 of each year (within 180 days after FDOT sets targets). MPOs have the option of supporting the statewide targets or establishing their own targets for the MPO planning area.

MPOs must include the most recent reported performance and targets with each TIP update. The TIP must describe how the investments contribute to achieving the performance targets. The LRTP must include a System Performance Report that discusses the performance of the transportation system and progress achieved in meeting the targets over time.

## ASSESSMENT OF SIGNIFICANT PROGRESS

FHWA considers a state to have met or made significant progress when at least four of the five safety targets are met or the actual outcome is better than baseline performance. Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users.

As requested by FHWA, FDOT annually develops an [HSIP Implementation Plan](#) to highlight strategies it will undertake in support of these targets. MPOs are encouraged to review this Plan each year to identify strategies appropriate for their planning area.

FHWA will not assess MPO target achievement. However, FHWA will review MPO adherence to performance management requirements as part of periodic transportation planning process reviews.

The Florida Department of Transportation (FDOT) is constructing a two-lane roundabout at the intersection of State Road (S.R.) 44 (East New York Avenue) and Kepler Road in DeLand, Volusia County, to enhance safety and improve the flow of traffic.

Once completed, the roundabout will replace the existing signalized intersection. The roundabout will also have two travel lanes in each direction with right-turn bypass lanes at three of the four road connections, a concrete apron to accommodate large trucks, and landscaping in the center island.

Pedestrian safety enhancements include new sidewalks and crosswalks equipped with Rectangular Rapid Flashing Beacons (RRFBs) at the roundabout approaches. Each RRFB will include flashing yellow LED lights to increase drivers' awareness of pedestrians crossing at the roundabout. For more information about RRFBs and how to use them, visit:

<https://www.alerttodayflorida.com/Pedestrian>.

S.R. 44 will also be resurfaced from approximately 800 feet west of Kepler Road to Talisman Road. Kepler Road will be resurfaced from 650 feet south of S.R. 44 to 1,250 feet north of S.R. 44. Additionally, a center bi-directional turn lane will be added along S.R. 44 from east of Kepler Road to Lake Winnemissett Drive.

The Florida Department of Transportation (FDOT) is implementing safety improvements and resurfacing the roadway along Granada Boulevard (State Road (S.R.) 40) from U.S. 1 to S.R. A1A (Ocean Shore Boulevard/South Atlantic Avenue), except for the bridge over the Halifax River in Ormond Beach.

In addition to repaving this segment of S.R. 40, the travel lanes along this segment of Granada Boulevard will be slightly narrowed to 10 feet, and subtle changes in the roadway alignment will be introduced to encourage slower driving speeds. Pedestrian safety improvements include a new mid-block pedestrian crossing between Vining Court and Bovard Avenue. Upgrades will also be made to existing crossings at Washington Street and west of Beach Street.

The mid-block crossings located west of Beach Street and between Vining Court and Bovard Avenue will be slightly elevated to be level with the sidewalk and will include in-road lighting to further alert motorists of people crossing the roadway and encourage reduced speeds.

All three crossings will be equipped with a Pedestrian Hybrid Beacon (PHB) and overhead lighting to increase driver awareness and visibility of pedestrians. A PHB is an overhead traffic device that remains dark until a pedestrian activates the beacon, signaling for drivers to come to a stop and for pedestrians to cross. Audible pedestrian signals and detectable warning pads will also be installed at each crossing to provide accessibility for the visually impaired.

Intersection lighting will be upgraded, and new mast-arm poles will be installed at the Ridgewood Avenue and S.R. A1A traffic signals. New bicycle lanes next to turn lanes, called keyholes, minor drainage improvements, median modifications, and a new directional median to reduce left-turn conflicts at Washington Street will also be included. Existing sidewalks and on-street parking will remain.

lanes to enhance mobility in the area. A new roundabout at the intersection of U.S. 17 and Spring Garden Avenue/Spring Garden Ranch Road is also being constructed to improve operations and safety. This project also includes a multi-use trail from Spring Garden Avenue to Lake Winona Road and a new entrance into the Department of Forestry compound. This project is a portion of the overall project approved in the 2006 PD&E study to widen U.S. 17 to north of S.R. 40 (FPID No. 410251-1). Another segment, project 410251-4, proposes to widen U.S. 17 from south of Winona Road to S.R. 40 and includes a new bridge over Deep Creek, as well as a wildlife crossing culvert.

## **TPO HOLIDAY OPEN HOUSE & TOY DRIVE A SUCCESS**

On December 11, the Volusia-Flagler TPO rang in the holiday season with our annual open house, held for the first time in our new conference room. The event brought together more than 40 attendees—including committee and board members, partner organizations, consultants, friends, and family—for an afternoon filled with food, laughter, and festive cheer.

A highlight of the event was our annual toy drive, benefiting the Department of Children & Families and The Neighborhood Center of West Volusia. Thanks to the generosity of our guests and contributors, we collected an incredible **754 toys and gift cards**, helping brighten the holidays for infants, children, and teens across our planning area.

We extend heartfelt thanks to everyone who joined us and contributed to the toy drive. Your support made this celebration truly meaningful, and we're grateful to have shared such a joyful afternoon together!

### Bicycle Helmets for TeenTober™

TeenTober™ is a nationwide celebration hosted by libraries every October and aims to celebrate teens, promote year-round teen services, and innovative ways to help teens learn new skills, and fuel their passions in and outside of libraries.

First Presbyterian Church of New Smyrna, Friends of the Daytona Beach Regional Library, and the Volusia-Flagler TPO helped to make the library's TeenTober™ bicycle prize event unforgettable! From generous donations of refurbished bikes, locks, and properly fitted helmets, the First Presbyterian Church of New Smyrna, Friends of the Daytona Beach Regional Library, and the Volusia-Flagler TPO helped celebrate local tweens' and teens' hard work during this October's intensive literacy program at John H. Dickerson Heritage Library.

Winners of the bikes were grateful for the incredible community support. The Volusia-Flagler TPO properly fit and donated helmets to ten local teens and tweens who received bicycles to help ensure they stay safe.

## 15 Years of Moving Together — What's Next for Your Commute

Dear Commuter,

For the past 15 years, the Florida Department of Transportation (FDOT) District Five has sponsored the reThink Your Commute program by helping thousands of people explore additional travel options, from rideshare and vanpooling to transit, biking, and walking. As FDOT focuses resources in support of Central Florida's transportation needs, the reThink Your Commute program will conclude on **January 31, 2026**.

**Please remember to use your reThink Your Commute reward points and submit your reimbursable rides request by January 31, 2026.** After that date, the program will no longer be active. This will include the discontinuation of the "reThink Your Commute" Application trip planner and the Reimbursable Rides emergency ride home program.

Many resources remain available to help you get where you need to go.

### **What You Can Do Now:**

Check out transit agency websites in your region, see schedules, maps, and services that best match your route:

- [The Central Florida Regional Transportation Authority \(LYNX\)](#)
- [SunRail Commuter Rail](#)
- [Votran \(Volusia County\)](#)
- [LakeXpress \(Lake County\)](#)
- [Space Coast Area Transit \(Brevard County\)](#)
- [Sumter County Transit](#)
- [Flagler County Transit](#)
- [SunTran \(Marion County\)](#)
- [Scout \(Seminole County\)](#)
- [RideDTO \(Downtown Orlando\)](#)
- [Mt. Dora Freebee Ride Service](#)

- [City of Kissimmee Freebee Ride Service](#)
- Use FL511 — real-time traffic, travel conditions on the state roadway system, incident alerts, and commuter trip planning by visiting [www.fl511.com](http://www.fl511.com) or on the FL511 app.
- Explore [Transit Connects](#) finding your ride in all parts of Florida for easy access to where you are going.
- Look at [Florida's Commuter Services](#)— for carpool matches, vanpool options, and alternative commute ideas.
- SunRail has a list of connectivity services here: [Connecting Services - SunRail](#)
- Contact your local transit provider to ask about discounted passes, late-night options, or commuter incentives.

#### **Why This Transition Matters:**

- The way people commute is changing, telework is continuing for some businesses, more transit investment, more options.
- FDOT continues to invest in transit capital programs and mobility innovation so that your region's transportation system keeps improving.
- The goal remains the same: better access, more options, less congestion and a connected Florida.

We want to express our deepest gratitude for letting us be a part of your journey. While the program is ending, we believe a more dynamic, flexible, and responsive commuter transportation lies ahead, and we are committed to supporting that growth.

Safe travels,

The reThink Your Commute Team

*(P.S. You do not need to take any action unless you wish to explore alternative commute options now. We encourage you to bookmark the resources above.)*
