**I. Call to Order / Roll Call / Determination of Quorum/Pledge of Allegiance**

Chairperson Deyette called the meeting of the River to Sea Transportation Planning Organization (TPO) Citizens Advisory Committee (CAC) to order at 1:15 p.m. The roll was called and it was determined that a quorum was present.

Ms. Nicoulin reminded members to refrain from sidebar conversations while members are speaking and during presentations.

**II. Press/Citizen Comments**

There were no press/citizen comments.

### III. Action Items

#### A. Review and Approval of January 15, 2019 CAC Meeting Minutes

**MOTION:**        *A motion was made by Mr. Storke to approve the January 15, 2019 CAC meeting minutes. The motion was seconded by Mr. Strcula and carried unanimously.*

#### B. Review and Recommend Approval of Resolution 2019-## Updating the Safety Performance Targets

Ms. Nicoulin gave a PowerPoint presentation on the updated 2019 Safety Performance Targets. The TPO is required to adopt safety performance measures for five targets; she reviewed those targets.

Ms. Habel asked what "VMT" was an acronym for; she could not find it on the list of acronyms.

Ms. Nicoulin replied it is vehicle miles travelled. She continued with the presentation and stated last year the TPO adopted the safety targets based on a 2% annual reduction; FDOT adopted a target of zero. Although the TPO supports FDOT's efforts toward vision zero, after discussion with the advisory committees and TPO Board, we adopted a target we felt it could achieve. The TPO recognizes it cannot influence every factor that contributes to a crash; the TPO has no impact on law enforcement or human behavior. The 2019 targets were set using the same methodology as the 2018 targets in determining targets of a 2% annual reduction of the last known statistics from 2017 of fatalities and serious injuries. The 2018 data is not finalized but the 2017 data has increased; she reviewed the data used to develop the target. She noted that the TPO's planning area does not cover all of Flagler County and that the data is provided by FDOT on a countywide level.

Mr. Peterson commented that few people in Flagler County live west of US 1; his understanding is that US 1 is included in the TPO's planning area so if there is a discrepancy in the data, it would be miniscule. He asked how the VMT is calculated by the state.

Ms. Nicoulin replied it is a methodology developed at FDOT's State Safety Office and is used statewide. The requirement is to measure it based on all public roads; however, data is not collected on local neighborhood roads so it is likely an estimate based on the data available. The data is consistent year-to-year.

Mr. Peterson asked what happens if the TPO does not reach its goal.

Ms. Nicoulin replied that currently, no funding is tied to these goals. The TPO reports its targets to FDOT who reports to the Federal Highway Administration (FHWA); the TPO is a part of FDOT's target and is helping them to achieve their target.

Discussion continued regarding VMT data.

Mr. Klasel commented that he understands the rates are based on the VMT and that it is driven by the state but there is a key determining factor statewide on how these rates are collected; it is very important that we understand how it is done. He asked if there was a website or any information available that explains how this is done.

Ms. Nicoulin replied the TPO could gather the information from the state Safety Office and follow-up with the members after the meeting. She continued with the presentation.

Mr. Peterson asked when the 2018 data would be available.

Ms. Nicoulin replied the data should be finalized within the next couple of months.

Mr. Peterson asked if it could be presented when it becomes available to see how the TPO did in 2018.

Ms. Nicoulin replied yes.

**MOTION:** *A motion was made by Mr. Storke to recommend approval of Resolution 2019-## updating the safety performance targets. The motion was seconded by Mr. Blais and passed unanimously.*

Chairperson Deyette introduced new CAC member, Mr. Daniel Klasel, representing Edgewater.

**C. Review and Recommend Approval of Resolution 2019-## Amending the FY 2018/19 to 2022/23 Transportation Improvement Program (TIP)**

Ms. Nicoulin stated this amendment to the FY 2018/19 to 2022/23 Transportation Improvement Program (TIP) is adding the SR 44 at Kepler Road Intersection Improvements project in the current year for design. The project has been ranked on the priority project list and this moves it into the design phase.

Ms. Habel asked if the design will be similar to the roundabout in DeLand.

Ms. Nicoulin replied it is unknown; it has not been designed yet. It is moving into the design phase and we do not know yet if they will be widening any of the approaches yet.

Ms. Foltz asked where Kepler Road is located.

Ms. Nicoulin replied it is in DeLand close to I-4 and SR 44.

**MOTION:** *A motion was made by Ms. Gillespie to recommend approval of Resolution 2019-## amending the FY 2018/19 to 2022/23 Transportation Improvement Program (TIP). The motion was seconded by Ms. Habel and passed unanimously.*

**D. Review and Recommend Approval of Resolution 2019-## Authorizing the Execution of a Supplemental Agreement to the Metropolitan Planning Organization (MPO) Agreement for the Use of Transportation Planning (PL) and Urban Attributable (SU) Funds and Amending the FY 2018/19 and 2019/20 Unified Planning Work Program (UPWP)**

Ms. Nicoulin stated the Unified Planning Work Program (UPW) is the TPO's two-year Work Program listing all activities by tasks that staff will undertake; it identifies required activities, previous activities, deliverables and deliverable dates. The current UPWP took effect July 1, 2018 and an amendment is needed to adjust for things that have occurred since. This amendment includes adding funds received from the Federal Transit Administration (FTA) and from walkability grant the TPO was awarded. She explained the funding, descriptions, changes and a shift of funds. The amendment also adds a task in-house for a "food desert" study. "Food deserts" are areas in the community that do not have access to healthy food choices and possibly includes transportation disadvantaged citizens. The amendment also incorporates a planning study being conducted by Votran; it is being included in the UPWP as an information item in order for Votran to utilize the grant money.

Ms. Habel referred to the "food desert" study and asked if there was additional funding allocated for it.

Ms. Nicoulin replied the funding that is allocated for the study is for staff time.

Ms. Habel asked if the study uncovered a serious deficit where the funding would come from to override the deficit.

Ms. Nicoulin replied the study will be conducted in the second year of the UPWP so if deficiencies are identified, funding would be allocated when the new UPWP is developed.

**MOTION:** *A motion was made by Ms. Gillespie to recommend approval of Resolution 2019-## authorizing the execution of a supplemental agreement to the Metropolitan Planning Organization (MPO) Agreement for the use of Transportation Planning (PL) and Urban*

***Attributable (SU) funds and amending the FY 2018/19 and 2019/20 Unified Planning Work Program (UPWP). The motion was seconded by Ms. Lendian and passed unanimously.***

**F. Appointment of 2019 Transportation Improvement Program (TIP) Subcommittee Members**

Chairperson Deyette stated each year the TIP Subcommittee is convened to evaluate priority project applications and to review the Call for Projects process and selection criteria used to develop the TPO's Project Priority Lists. The TPO staff is seeking volunteers from each advisory committee to participate in this subcommittee.

Ms. Nicoulin stated currently, there are seven CAC members on the TIP Subcommittee. This subcommittee meets following the close of the annual Call for Projects to review the project applications and ranks them for prioritization; they reconvene in the fall to discuss the process and identify potential changes to the process or policies that govern the process. The TPO is asking for retainment of the current CAC members if they wish as well as any additional members that would like to participate.

Ms. Foltz, Mr. Klasel and Mr. Strcula volunteered to serve; the current CAC members on the TIP Subcommittee with the exception of Ms. Lipovsky agreed to continue to serve. Ms. Nicoulin will contact Ms. Lipovsky to confirm she wishes to continue to serve on the subcommittee.

***MOTION: A motion was made by Ms. Elliott to reappoint Mr. Blais, Mr. Storke, Ms. Lendian, Ms. Gillespie, Ms. Lipovsky, Mr. Ball and Mr. Peterson and to appoint Ms. Foltz, Mr. Klasel and Mr. Strcula to the 2019 Transportation Improvement Program (TIP) Subcommittee. The motion was seconded by Mr. Delaney and carried unanimously.***

**IV. Presentation Items**

**A. Presentation and Discussion of 2019 Call for Projects Workshop**

TCC Only

**B. Presentation and Discussion of Votran's Service Changes in West Volusia County**

(handout)

Mr. John Cotton, Votran, gave a PowerPoint presentation of Votran's service changes in West Volusia County. Votran operates seven routes on the west side of the county, Monday through Saturday; he reviewed those routes and the service changes and stop locations for routes 21, 22, 23. These routes will no longer go into the Crown Center parking lot; the stops will be relocated to Enterprise Road. He explained the property owner has asked Votran not to stop in front of their stores and explained the new configuration for the stops. He commented that being asked to not enter a parking lot is a growing trend in Volusia County. He reviewed the new route 25 that will operate primarily in the Howland Boulevard corridor and the stops on that route.

Mr. Klasel asked what the driving force was for being asked to leave the parking lot of the Crown Center.

Mr. Cotton replied it was a risk, a liability and because of the maintenance required on the asphalt; parking lots are not made for buses to drive on every hour on the hour. It is mostly liability.

Mr. Klasel asked if it was driven by the risk of insurance.

Mr. Cotton replied they did not go into detail; it is private property.

Ms. Habel asked if there were any statistics to argue the point.

Mr. Cotton replied no; since it is private property, Votran is not arguing the point.

Mr. Peterson asked if Votran could assume the risk.

Mr. Cotton replied Volusia County does not wish to assume that risk.

Ms. Foltz asked if the buses had a pull out where they could get out of the traffic for these stops; a bus bay.

Mr. Cotton replied not for a high density road like this; it is almost impossible for the bus to get back onto the road. He continued with the presentation and stated the new Route 25 will begin on Monday, February 25, 2019. He reviewed the funding for implementation of the new route, drivers and ADA bus stop pads. He announced the new route opens the door for an ADA corridor which is a corridor three-quarters of a mile on each side of the bus route that allows Votran to send paratransit vehicles. Those that live within this ADA corridor can register for Votran's Gold Service; he noted a medical approval form is required. Votran established 22 ADA compliant stops along Howland Boulevard for this new route.

Chairperson Deyette asked if Votran went into the Center at Deltona.

Mr. Cotton replied Votran established a stop right before the roundabout; there is an accessible path to the center. They do not physically go onto the property. There is no night, Sunday or holiday service for Route 25 at this time. The in-bound and out-bound point for the buses is at Epic Theaters; Votran has a signed agreement with them to come onto the property and develop one stop on the property.

Discussion continued.

**C. FDOT Report**

The FDOT report was provided in the agenda. Ms. Wyche announced the lights at Orange Camp Road and SR 472 are tentatively set to be activated on Thursday, February 21, 2019.

Ms. Habel referred to page 44 of the agenda and the I-95 widening project; she asked what improvements were being planned for the Bellevue Road and Tomoka Farms Road extension to US 92.

Ms. Wyche replied she would get that information and get back to her.

**D. Volusia and Flagler County Construction Reports**

Ms. Winsett stated the Volusia County Construction Report is included in the agenda on page 54; several projects have been added to the design phase. She commented the Volusia County Council meeting agenda Item V-B, allows for discussion of the half-cent sales tax for transportation and water infrastructure projects. She referred members to the Volusia County website, [www.volusia.org](http://www.volusia.org), for the draft lists of projects the county would pursue if the public approves the half-cent sales tax. She noted everything is still a draft at this time.

Ms. Habel asked what kind of public information would be available prior to the vote.

Ms. Winsett replied they are planning on holding town hall meetings in March.

Ms. Habel asked if the half-cent sales tax would only be used for county roads.

Ms. Winsett replied no; it is for all public roads. The cities and county have come together and combined their projects onto one list. The information on the Volusia County website only includes the projects the county is pursuing but every city will receive some of this tax money and will have to submit their project lists to the public also. She is not sure how it is being organized with regards to the cities but the county is going to hold town hall meetings.

Ms. Foltz asked if it is known how the money would be distributed.

Ms. Winsett replied it would be divided amongst the local governments according to population.

Mr. Strcula stated that Ormond Beach has determined what they would receive annually based on their population if the tax is passed.

Mr. Ball commented it would be distributed as the gas tax revenue is; the formula is already in place.

Ms. Habel referred to Project 14 under Design on the Volusia County Construction Report and asked if that was for widening.

Ms. Winsett replied yes.

#### **V. Staff Comments**

→ Update on SU Funding/Work Program

Ms. Nicoulin stated the SU funding is used on projects programmed from the TPO's Project Priority List. For this current year, the TPO has programmed all the projects it can that were ready to be programmed. There was a balance left and a request from FDOT was previously discussed to put the funds toward the design of the I-95 and Pioneer Trail interchange; that project will likely come before the committees and TPO Board next month as a TIP amendment.

Ms. Blankenship announced the TPO's Annual Planning Retreat will be held on Monday, February 25, 2019 from 3:30 pm to 5:30 pm; registration is online at [www.daytonachamber.com](http://www.daytonachamber.com). The topic will be the relationship between transportation and the local economy. The TPO is partnering with the Daytona Beach Chamber of Commerce this year. She announced next week is also "Not So Noisy" Bike Week and the TPO will be at Embry Riddle Aeronautical University, Daytona State University and Bethune Cookman University fitting bike helmets followed by a community bike ride on Saturday, March 2, 2019. She announced Saturday, March 2, 2019 is the Daytona Halifax Area Lions Club Community Health Fair at the Midtown Cultural and Education Center which the TPO will be participating in.

Ms. Nicoulin announced the TPO's Transit Planner, Mr. Jabari Hampton, had to move out of state and his position is now vacant. Mr. Harris will be managing the transit program until a replacement is hired.

#### **VI. CAC Member Comments**

Ms. Habel referred to the Annual Planning Retreat speakers and commented that she would like to see more diversity in the speakers.

Mr. Delaney commented the Pike Electric is doing power line work in South Daytona and they are doing a good job.

Ms. Gillespie met with business on the east side of Oak Hill who do not want the SUN Trail to be located where it is being proposed and have hired an attorney; they do not feel their concerns are being heard.

**I. Call to Order / Roll Call / Determination of Quorum**

Chairperson Papa called the meeting of the River to Sea Transportation Planning Organization (TPO) Technical Coordinating Committee (TCC) to order at 3:00 p.m. The roll was called and it was determined that a quorum was present.

**II. Press/Citizen Comments**

There were no press/citizen comments.

**III. Action Items**

**A. Review and Approval of January 15, 2019 TCC Meeting Minutes**

**MOTION:**        *A motion was made by Mr. Paradise to approve the January 15, 2019 TCC meeting minutes. The motion was seconded by Mr. Lear and carried unanimously.*

**B. Review and Recommend Approval of Resolution 2019-## Updating the Safety Performance Targets**

Ms. Nicoulin gave a PowerPoint presentation on the updated 2019 Safety Performance Targets. She stated 2018 was the first year the TPO adopted the safety targets; it is required to adopt safety performance measures for five targets and she reviewed those targets. FDOT has again adopted a target of zero for all categories for 2019. Last year the TPO adopted an independent target based on a 2% annual reduction for each safety performance measure. Using the same methodology as 2018, the TPO is proposing to adopt targets for 2019 based on a 2% annual reduction. The 2018 data is not finalized but the 2017 data has increased over the 2016 data. She reviewed the data used to develop the target and stated the main goal is to drive the number down. The rates are calculated based on vehicle miles travelled (VMT) and she continued to review the data. The TPO continues to support FDOT with their target of vision zero but consistent with last year the TPO is proposing to establish targets that are attainable. The TPO recognizes it cannot influence every factor that contributes to a crash; it has no impact on law enforcement or human behavior.

Chairperson Papa asked for a definition of serious injuries.

Ms. Nicoulin replied it is a life-changing injury where a person can no longer do the activities previously done; cannot walk, work, etc.

Chairperson Papa referred to the 2% reduction and asked if that was from the previous year or if the TPO was going to look at the five-year rolling average.

Ms. Nicoulin explained how the rolling average was calculated and that it is what it is. The 2% reduction is based on the actual number and the goal is to drive that number down.

Mr. Paradise asked how the targets would be applied or implemented after adoption and how it will affect the day-to-day business of the TPO.

Ms. Nicoulin replied safety criteria are included in the project applications that come in through the annual Call for Projects. When the TPO programs projects it has to indicate to FDOT what performance measure the project is targeting. The TPO completed a safety audit last year analyzing crash data by location and severity; ten intersections and ten roadway sections were identified within the TPO's planning area. The audit also included mitigation strategies to help alleviate safety concerns associated with those crashes. That study provides background information for local municipalities to apply during the Call for Projects or to program improvements based on other funds not through the TPO. The TPO is also proposing to establish a community safety team that will more specifically focus on implementable action. She noted every year new data will be available and the TPO will be able to compare what was previously adopted to what measures and strategies are effective.

**MOTION:**        *A motion was made by Mr. Lear to recommend approval of Resolution 2019-## updating the Safety Performance Targets. The motion was seconded by Ms. Mendez and carried unanimously.*

**C. Review and Recommend Approval of Resolution 2019-## Amending the FY 2018/19 to 2022/23 Transportation Improvement Program (TIP)**

Ms. Nicoulin stated this amendment programs current year dollars for the SR 44 and Kepler Road intersection roundabout for design into the current year of the Work Program.

**MOTION:**        *A motion was made by Mr. Lear to recommend approval of Resolution 2019-## amending the FY 2018/19 to 2022/23 Transportation Improvement Program (TIP). The motion was seconded by Mr. Holmes and carried unanimously.*

**D. Review and Recommend Approval of Resolution 2019-## Authorizing the Execution of a Supplemental Agreement to the Metropolitan Planning Organization (MPO) Agreement for the Use of Transportation Planning (PL) and Urban Attributable (SU) Funds and Amending the FY 2018/19 and 2019/20 Unified Planning Work Program (UPWP)**

Ms. Nicoulin stated the Unified Planning Work Program (UPWP) is the TPO's two-year Work Program listing all activities by tasks staff will undertake; it identifies required activities, previous activities, deliverables and deliverables dates. The current UPWP took effect July 1, 2018 and an amendment is needed to adjust for things that have occurred since. This amendment adds funds received from the Federal Transit Administration (FTA) and from the walkability grant the TPO was awarded. She explained the funding, descriptions, changes and a shift of funds. The amendment also adds a task in-house for a "food desert" study. "Food deserts" are areas in the community that do not have access to healthy food choices and possibly include underserved communities and transportation disadvantaged citizens. The amendment also incorporates a planning study being conducted by Votran; it is being included in the UPWP as an information item in order for Votran to utilize the grant money.

Mr. Karet asked what communities the TPO will target for the "food desert" study.

Ms. Nicoulin replied the methodology has not yet been developed.

Mr. Paradise asked if the additional \$17,799 came out of the Long Range Transportation Plan (LRTP).

Ms. Nicoulin replied the additional funds of \$24,683 are coming from additional FTA funds of \$17,799 plus funds received for the walkability grant of \$6,884.

***MOTION: A motion was made by Mr. Lear to recommend approval of Resolution 2019-## authorizing the execution of a Supplemental Agreement to the Metropolitan Planning Organization (MPO) Agreement for the use of Transportation Planning (PL) and Urban Attributable (SU) Funds and amending the FY 2018/19 and 2019/20 Unified Planning Work Program (UPWP). The motion was seconded by Mr. Walker and carried unanimously.***

**E. Appointment of 2019 Transportation Improvement Program (TIP) Subcommittee Members**

Ms. Nicoulin stated the Transportation Improvement Program (TIP) Subcommittee convenes after the close of the annual Call for Projects; the applications are ranked and scored based upon criteria for projects to be placed on the List of Priority Projects (LOPP). The TIP Subcommittee reconvenes in the fall to discuss the process and recommend any changes to the policies that govern the process as well as the applications. Currently, there are four TCC members that serve on the TIP Subcommittee and the TPO is requesting reappointment of those members as well as any additional members that would like to serve.

Mr. Paradise, Ms. Winsett and Chairperson Papa stated they would continue to serve on the TIP Subcommittee.

Mr. Walker asked if there could be an additional member from Holly Hill.

Ms. Nicoulin replied yes. She stated Ms. Dodd is also on the TIP Subcommittee but is not in attendance today; she can be reappointed if the committee chooses. She will contact her after the meeting to confirm if she is still interested.

***MOTION: A motion was made by Mr. Paradise to reappoint Mr. Paradise, Mr. Cheney, Chairperson Papa and Ms. Dodd and to appoint Mr. Walker to the 2019 Transportation Improvement Program (TIP) Subcommittee. The motion was seconded by Mr. Lucas and carried unanimously.***

#### **IV. Presentation Items**

##### **A. Presentation and Discussion of 2019 Call For Projects Workshop**

Ms. Nicoulin stated the annual Call for Projects opened on January 24, 2019 and will close March 29, 2019; the TPO is accepting applications for Traffic Operations/Safety and Implementation projects, Bicycle/Pedestrian Feasibility and Implementation projects and planning studies. The local match requirement is still a 10% minimum; however, extra points are awarded for municipalities that elect to provide a match higher than the required 10%. The next three years are programmed out for Traffic Operations/Safety projects; however, that does not mean that no projects will be programmed or that money will not become available. This year the TPO is requiring each municipality submit a letter to retain projects they have on the priority list; if they do not want to pursue federal funding, they need to request removal of their projects. The TPO is also requiring updated cost estimates for any project or phase of a project that is not currently programmed. If the project or phase of a project is programmed, any update or increase to the cost estimate will fall into what was adopted last month regarding cost increases versus cost overruns. If there are any questions as members review the priority lists please contact her or Mr. Harris. As a courtesy, the TPO will review applications prior to the application deadline; please provide those applications a week in advance in order for staff to review and provide feedback. A couple of municipalities took advantage of this last year and their applications were well received.

Ms. Grosso asked if the lists of projects were being distributed to the municipalities yet.

Ms. Nicoulin replied not yet.

Ms. Grosso asked when they may be distributed.

Ms. Nicoulin replied within the next week.

Mr. Harris stated the March 29, 2019 deadline for the Call for Projects is 2:00 pm. The TPO is accepting applications only through its file transfer site; one hard copy is still required. No applications will be accepted via email, flash drives or CDs this year. The municipality will receive a confirmation once an application is submitted.

Chairperson Papa asked about the required hard copy and if it could be accepted after the electronic submittal.

Mr. Harris replied as long as it is submitted by 2:00 pm on March 29, 2019.

Ms. Nicoulin stated everything is due by 2:00 pm, March 29, 2019; there is a link within the application to upload it to the TPO's file transfer site.

##### **B. Presentation and Discussion of Votran's Service Changes in West Volusia County**

(handout)

Mr. John Cotton, Votran, gave a PowerPoint presentation of Votran's service changes in West Volusia County. Votran operates seven routes on the west side of the county, Monday through Saturday only; he reviewed those routes and the service changes and stop locations for routes 21, 22, 23. These routes will no longer go into the Crown Center parking lot; the stops will be relocated to Enterprise Road. He explained the property owner has asked Votran not to stop in front of their stores and discussed the new configuration for the stops. He commented that being asked to not enter a parking lot is a growing trend in Volusia County. He reviewed the new route 25 that will operate primarily in the Howland Boulevard corridor and the stops on that route. He stated the new Route 25 will begin on Monday, February 25, 2019. He reviewed the funding for implementation of the new route, drivers and ADA bus stop pads and announced the new route opens the door for an ADA corridor which is a corridor three-quarters of a mile

on each side of the bus route that allows Votran to send paratransit vehicles. Those that live within this ADA corridor can register for Votran's Gold Service; a medical approval form is required. Votran has established 22 ADA compliant stops along Howland Boulevard for this new route.

**C. FDOT Report**

The FDOT report was provided in the agenda. Ms. Wyche announced the lights at Orange Camp Road and SR 472 are tentatively set to be activated on Thursday, February 21, 2019.

**D. Volusia and Flagler County Construction Reports**

Ms. Winsett stated the Volusia County Construction Report is included in the agenda on page 54; several projects have been added to the design phase. She commented the Volusia County Council meeting agenda Item V-B, allows for discussion of the half-cent sales tax for transportation and water infrastructure projects. She referred members to the Volusia County website, [www.volusia.org](http://www.volusia.org), for the draft lists of projects the county would pursue if the public approves the half-cent sales tax. She noted everything is still a draft at this time.

**V. Staff Comments**

→ Update on SU Funding/Work Program

Ms. Nicoulin stated the SU funding is used on projects programmed from the TPO's Project Priority List. For this current year, the TPO has programmed all the projects it can that were ready to be programmed. There was a balance left and a request from FDOT was previously discussed to put the funds toward the design of the I-95 and Pioneer Trail interchange; that project will likely come before the committees and TPO Board next month as a TIP amendment for this funding.

Ms. Nicoulin announced the TPO's Transit Planner, Mr. Jabari Hampton, had a life-changing event that has caused him to move out of state and has resigned his position. That position is open and the TPO is currently advertising for it; if members know of anyone with experience or a background in transit planning, please direct them to the TPO website. In the meantime, Mr. Harris will be the contact for transit related issues.

Ms. Nicoulin referred to the List of Priority Projects and the way the information is presented and stated the TPO is currently working with FDOT to develop a standard format for all MPO/TPOs. The current formatting will likely change; the information will still be the same but will look different.

Ms. Blankenship announced the TPO's Annual Planning Retreat will be held on Monday, February 25, 2019 from 3:30 pm to 5:30 pm; registration is online at [www.daytonachamber.com](http://www.daytonachamber.com). The topic will be the relationship between transportation and the local economy. The TPO is partnering with the Daytona Beach Chamber of Commerce this year. She announced next week is also "Not So Noisy" Bike Week and the TPO will be at Embry-Riddle Aeronautical University, Daytona State College and Bethune-Cookman University fitting bike helmets followed by a community bike ride on Saturday, March 2, 2019. She announced Saturday, March 2, 2019 is the Daytona Halifax Area Lions Club Community Health Fair at the Midtown Cultural and Education Center which the TPO will be participating in.

**VI. TCC Member Comments**

Ms. Winsett announced Volusia County is developing the 2018 Average Annual Daily Traffic (AADT) counts; they have Volusia County and Deltona's counts and requested that cities that have their traffic counts to add to the spreadsheet to send them to the Volusia County Traffic Engineering Department.
