Task 5.09 – Corridor Implementation Plans

	Staff -	\$ 25,000	
	Consultant -	<u>\$225,000</u>	
Revenue -	\$250,000	Expenses -	\$250,000

Objectives: Develop a series of Corridor Implementation Plans that identify the projects and activities needed to improve the safety and operational efficiency along the corridor and create a secure and comfortable environment for all users.

Previous Work:

- Corridor Studies
- Program develop – Transportation Improvement Plan and Priority Project Lists
- General planning assistance to local governments.
- Mobility Plan Coordination
- Transit Planning and Implementation

Methodology:

- TPO Subcommittees will identify and prioritize major transportation corridors to be studied and hold a stakeholder workshop to develop a scope of services for the selected corridor.
- TPO staff/project selection committee will issue an RFP and select a consultant to complete a transportation study considering all modes of travel.
- The consultant will host a workshop including all affected jurisdictions to review current activity and direction for the corridor and to document issues, obstacles and opportunities affecting mobility along the corridor.
- The study will utilize readily accessible information including pertinent studies, plans and analyses such as PD&E's, Crash Data, Traffic Studies, Master Plans and TCEA Reports as a means to identify projects that may be pursued within the next few years.
- The consultant will conduct a field review to review and document existing transportation conditions, generalized land use characteristics and any other issues that impact safety and mobility along the selected corridor.

End Product:

- A report will be developed documenting the findings from previously collected work, the input from stakeholders and the results of the field review.
- A combined list of transportation improvement projects will be developed and included in the report to act as a current implementation plan for the corridor.
- Recommendations of follow-up activities, studies or additional analysis if needed.
- A stakeholders task force will be identified for the corridor to pursue future activities.
