REQUEST FOR PROPOSAL (RFP)

INTELLIGENT TRANSPORTATION SYSTEMS (ITS) MASTER PLAN – PHASE 2

SECTION 1: INTRODUCTION

PURPOSE

The River to Sea Transportation Planning Organization (TPO) is seeking the professional transportation planning services of a qualified Consultant to assist in completing an Intelligent Transportation System (ITS) Master Plan for the TPO’s metropolitan planning area. The TPO has included in the Unified Planning Work Program a Task Item entitled “Intelligent Transportation Systems (ITS) Planning”. This Task Item calls for the completion of an ITS Master Plan. The purpose of this ITS Master Plan is to provide guidance to the TPO and its member agencies for making rational, outcome-driven decisions relating to investment in ITS projects and strategies. The targeted outcome is an integrated and coordinated, multi-agency ITS system that maximizes the safety and efficiency of the multi-modal transportation system. The study will build on efforts completed in Phase 1 of the ITS Master Plan and the Florida Department of Transportation’s District 5 ITS Master Plan.

The Consultant must possess a broad range of knowledge, experience, and technical proficiency in ITS planning and technology.

All assignments must be completed in accordance with TPO policies, procedures, guidelines and rules. Federal guidelines and manuals may be required as supplemental documents. All work must be accomplished according to professionally acceptable engineering and planning judgment and practices.

A detailed description of the required services is provided under Attachment “A”: Scope of Services.

BACKGROUND

The River to Sea Transportation Planning Organization (TPO) is an independent organization responsible for the planning and programming of all federal and state transportation funds for all of Volusia County and for the urbanized areas of Flagler County including the cities of Flagler Beach, Beverly Beach, and portions of Palm Coast and Bunnell.

The TPO is the primary forum within which local governments and citizens voice concerns, identify priorities, and plan for improvements to all modes of transportation – roadway, public transportation, and bicycle and pedestrian facilities. The TPO Board is comprised of elected officials representing various local area governments and appointed members representing transportation authorities serving the area.

The TPO Board is supported by several advisory committees that include technical staff as well as citizen representatives that review information and make recommendations to the TPO Board. The organization has a small staff of transportation planning professionals that support, coordinate and complete the transportation planning activities undertaken by the TPO Board and committees. The TPO currently operates under signed joint participation and interlocal agreements with all member governments. Together, the board and committees are responsible for working together to improve the safety and efficiency of the transportation system in the area served by the TPO.
