PROJECT LOCATION

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Jennifer Smith, FDOT District Five Title VI Coordinator, via email at Jennifer.Smith2@dot.state.fl.us.

Oakridge Blvd. between Halifax Ave. and N. Atlantic Ave. – Roadway Improvements

Oakridge Boulevard (State Road (S.R.) 430) between Halifax Avenue and North Atlantic Avenue (S.R. A1A) Daytona Beach, Volusia County

Roadway Improvements

Financial Project Identification (FPID) No.: 441139-1

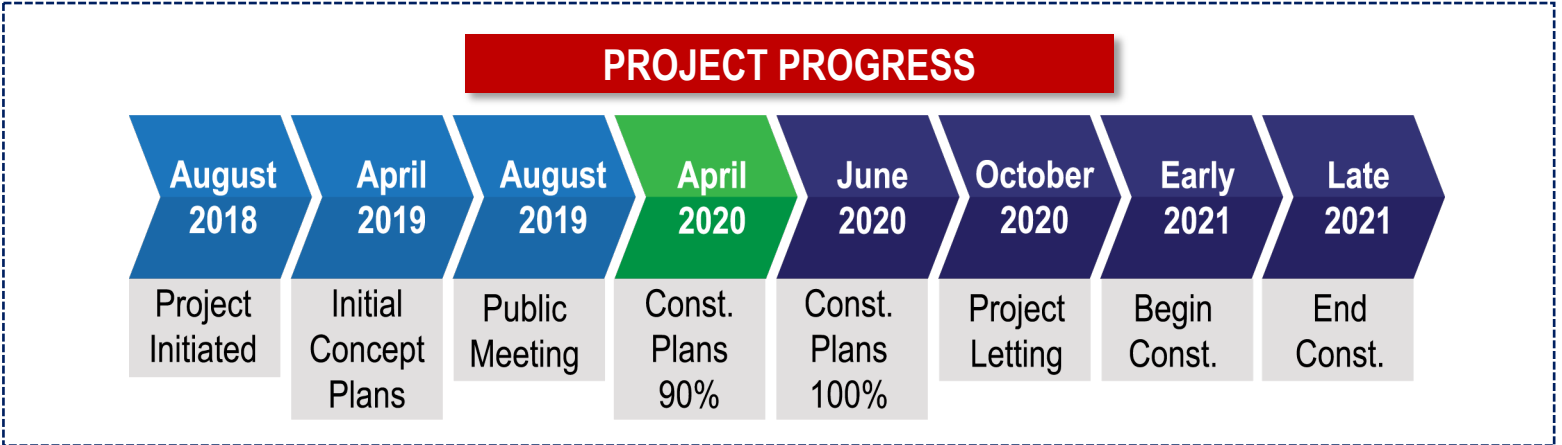

PROJECT UPDATE

The Florida Department of Transportation (FDOT) has been refining plans for proposed improvements along Oakridge Boulevard (S.R. 430) from Halifax Avenue to North Atlantic Avenue (S.R. A1A). In lieu of a second public meeting, FDOT has compiled a project update to inform the community of current developments in the design plans and project schedule.

The FDOT proposed improvements along Oakridge Boulevard include resurfacing the roadway; reducing the number of lanes from three to two; and providing a 7-foot wide buffered bicycle lane. In response to comments received at the project informational open house held in August 2019, FDOT has adjusted the design, which includes the addition of landscaping and a bicycle bail-out at Grandview Avenue. The bicycle bail-out will allow cyclists to walk safely to the S.R. A1A intersection away from traffic.

The status of the private developer’s permit for a driveway at the parking garage located on the northwest corner of Oakridge Boulevard and North Atlantic Avenue is still under review. At this time, it is unknown when a final decision will be made. That permit request is separate from FDOT’s planned improvements on this corridor. Design on the FDOT improvement project is proceeding on schedule and expected to be complete in summer 2020. Construction is anticipated to start in early 2021.

The graphic below illustrates the project progress and planned milestones. You may also view the updated project video and design plans on the CFLRoads.com project website using FPID number 441139-1 in the search tool.
