

US 1 Corridor Improvement Program

WHAT?

The Florida Department of Transportation (FDOT), in partnership with the Volusia Transportation Planning Organization and the US 1 Communities, is working on a unified corridor plan that addresses multi-modal challenges along the US 1 Corridor. Come help FDOT explore both transportation and land use strategies that can help address how FDOT can improve mobility along and across US 1.

You can help the planning team by providing information on locations within the corridor where you have:

- Safety concerns
- Difficulty accessing businesses, parks, or communities
- Frequent delays or congestion
- Aesthetic improvement suggestions
- Trouble locating places you don't visit often
- Need for greater public transit frequency or connectivity

WHEN & WHERE?

Two workshops are being held to solicit input.
