## CHAPTER 5 THE COUNTERMEASURES

---

### PEDESTRIAN FACILITY DESIGN

1. Campbell, B., C. Zegeer, H. Huang, and M. Cynecki, *Pedestrian Safety Research in the U.S.*, Federal Highway Administration, Washington, DC, October 1999.
2. Institute of Transportation Engineers, *Design and Safety of Pedestrian Fatalities*, March 1998.
3. Kirschbaum, J. et al., *Designing Sidewalks and Trails for Access, Part II of II: Best Practices Design Guide*, Federal Highway Administration, Washington, DC, September 2001.
4. *Draft Guidelines for Accessible Public Rights of Way*, United States Architectural and Transportation Barriers Compliance Board, Washington, DC, June 2002.
5. Federal Highway Administration, *Manual on Uniform Traffic Control Devices for Streets and Highways*, Federal Highway Administration, Washington, DC, 2003.
6. Zegeer, C., J. Stuart, and H. Huang, *Safety Effects of Marked vs. Unmarked Crosswalks at Uncontrolled Crossing Locations*, Federal Highway Administration, Washington, DC, 2001.
7. *Accessible Rights-Way-: A Design Guide*, United States Architectural and Transportation Barriers Compliance Board, Washington, DC, November 1999.

### TRAFFIC CALMING

1. Institute of Transportation Engineers, *Traffic Calming: State of the Practice*, August 1999.
2. Zegeer, C.V., J. Stuart, and H. Huang, *Safety Effects of Marked vs. Unmarked Crosswalks at Uncontrolled Crossing Locations*, Federal Highway Administration, Washington, DC, 1999.
3. Institute of Transportation Engineers and the Federal Highway Administration, *Traffic Calming State of the Art*, August 1999.
4. City of Cambridge, MA, *Preliminary Results: Effects of Columbia Street Traffic Calming Project on Driver Behavior*, April 2000.

### SIGNALS AND SIGNS

1. Federal Highway Administration, *Manual on Uniform Traffic Control Devices for Streets and Highways*, Washington, DC, 2003.
2. Zegeer, C.V., K.S. Opiela, and M.J. Cynecki, *Pedestrian Signalization Alternatives*, Report No. FHWA/RD-83-102, Federal Highway Safety Administration, Washington, DC, 1983.
3. Van Houten, Ron et al., *Field Evaluation of a Leading Pedestrian Interval Signal Phase at Three Urban Intersections*, Insurance Institute for Highway Safety,

Arlington, VA, April 1997.

4. Van Houten, Ron et al., *Use of Animation in LED Pedestrian Signals to Improve Pedestrian Safety*, Insurance Institute for Highway Safety, Arlington, VA, 1998.
5. Hughes, Ronald, H. Huang, C.V. Zegeer, and M. Cynecki, *Evaluation of Automated Pedestrian Detection at Signalized Intersections*, Report No. FHWA/RD-00/097, Federal Highway Administration, Washington, DC, August 2000.
6. Zegeer, C.V. and M.J. Cynecki, *Methods of Increasing Pedestrian Safety at Right-Turn-on-Red Intersections*, Report No. FHWA/RD-85/047, Federal Highway Administration, Washington, DC, March 1985.
7. Van Houten, Ron and J.E. Louis Malenfant, *Canadian Research on Pedestrian Safety*, Report No. FHWA/RD-99/090, Federal Highway Administration, Washington, DC, 1999.

#### **OTHER MEASURES**

1. Zegeer, C.V. and S.F. Zegeer, *Pedestrians and Traffic Control Measures*, NCHRP Synthesis of Highway Practice No. 139, Transportation Research Board, November 1988.
